ALEXANDER HAMILTON

Senior Software Architect | New York, NY | alex@example.com | portfolio.dev

PROFESSIONAL SUMMARY

Accomplished systems architect with 12+ years of experience engineering high-performance offline desktop engines, native compilers, and secure cross-platform applications. Recognized for visual fidelity standards and sub-second rendering pipelines.

PROFESSIONAL EXPERIENCE

Lead Systems Engineer | Apex Architecture Labs *2020 – Present*

- Architected native document conversion engine achieving 99.98% visual fidelity across complex vector layouts.
- Engineered zero-loss font metric mapping, preventing layout reflow and font substitution degradation.
- Led offline-first desktop initiative, eliminating runtime network dependencies and reducing latency by 85%.

EDUCATION & CREDENTIALS

B.S. in Computer Science | Columbia University
